

Captured Italo Officer Tells Of Last Stand At Coast Town Of Chimara

By MARY MERLIN
CHIMARA, Albania (via Athens), Dec. 26.—(Delayed)—(BUP)—The story of the Italians' last stand at this coastal town was given to the world by Lieut. Col. Borsini of the Second Italian Bersaglieri, now a prisoner.

Today's War Moves

Continued from Page One
but, there could be little encouragement for him in present Channel conditions.
Hitler, at Boulogne, peering to the west, saw the narrow strait, a reminder of the English, who made similar journeys to Boulogne in support of the Channel. Military mechanics are different now, but the problem of successfully transporting troops over the Channel is just as baffling.

It would seem incredible, from a military standpoint, that the German high command would attempt a winter effort to get into England. The long winter night brings no advantage to the German troops but the roughness of the Channel would play havoc with the German invasion force. A chance army is no help to plans for a winter landing on an enemy coast, probably even in fog.

SPRING MORE APPROPRIATE
If Her Hitler is resolved to risk a winter landing, it is more probable he will wait until the weather is less antagonistic. Next spring would be the more appropriate time.

But, so long as the British are on the alert, coming to the aid of their defenses, only the end of a final desperate gamble could lead to an invasion. The British are in a position to hold this line in the future. The Führer has his real chance last June, when the British were on the coast.

The maintenance of a great German army in occupied France, estimated at nearly 1,000,000 strong, does not in itself imply the possibility of an invasion. Quite apart from the necessity of holding France in continuous subjection, the financial benefit of a German army in France is to the strength of the army of occupation.

HEAVY COST
France is compelled to support the German troops in her territory. The present cost to France, based on the number of German soldiers in the occupied area, is about \$8,000,000 per day.

That is approximately 10 per cent of the direct cost of the war to Germany, relieving the Reich of a considerable part of the financial burden. Since France feeds the Germans, this is an important advantage in addition.

By continuing to sustain invasions in Germany, it is to immobilize the greater part of the French army. The British are able to hold off the invasion part of the army by keeping most of their troops at home.

BRITAIN VERY SPARING
The British operations in North Africa would be more effective if heavy reinforcements could be transported from home, and the British, too, would have more. But, the possibility of an invasion from makes Britain very sparing in her military distributions.

Thus, it is a strategic advantage for Germany to sustain invasions in France, on the other hand, the more troops Germany maintains in France, the less she can transport to the Balkans, in the Middle East and through Spain toward Gibraltar.

Therefore, the name of the Russian campaign, if the possibility of an invasion from the east is not immobilized, it is the possibility of a large part of the Führer's army troops.

Interpreting War News
By KIRKE L. SIMPSON
Associated Press Staff Writer
GERMANY is reported to be building up a huge army in Romania, yet in view of all the circumstances this move may be a purely defensive measure, designed to facilitate an all-out attack on Great Britain. That Hitler is ready to engage now in two-front war if he can avoid it is open to serious doubt.

Whatever the purpose, the troop movements eastward emphasize the fact Germany's Balkan strategy is her most vulnerable sector. It guards her Romanian oil resources. Without that oil, the whole Nazi war effort would collapse.

Yet, viewed at the hands of the Greek and the British have added greatly to the menace to Germany in the Balkans.

The Romanian fields are within three hours' reach from the British, and the attack on the Greek and Bulgarian fronts is being prosecuted by the British and Yugoslavians.

Whether the purpose, the troop movements eastward emphasize the fact Germany's Balkan strategy is her most vulnerable sector. It guards her Romanian oil resources. Without that oil, the whole Nazi war effort would collapse.

F.R. WON'T COMMENT ON "PEACE" MOVE

Believed Likely To Touch On Subject During His Speech Sunday
WASHINGTON, Dec. 27.—(AP)—The French president, who is believed to be very close to a peace move, is expected to comment on the subject during his speech Sunday.

Asked whether this suggestion at a press conference, the President said the easiest way to answer was to say he had no news.

Asked whether the subject might be touched on in his Sunday night radio address, he replied he could not say because he had not completed his thoughts on the subject.

Stephen K. White, House press secretary, said yesterday the speech would be very clear and specific on all points, but would not contain any figures or information that any other government might wish to have.

The French said today there might be several more drafts of the speech and it was a question of whether the speech would be broadcast from 7:30 to 8 p.m. M.S.T. what he would like to say in two hours.

Coincident with the seasonal demands for peace moves come efforts to change congressional opposition to the President's aid to Britain policy.

LONG REST FOR R.A.I.
Since Monday night, as had been the German Air Force, the Royal Air Force had its longest rest since May 18. No Christmas leaves were granted aviation, however, because the R.A.F. had been on emergency duty because of the possibility the Germans would try an invasion.

Anti-aircraft guns drove a German bombing plane away from a southwest coast town this morning. It dropped no bombs.

Four casualties in England towns reported German planes in the air, and there was a general feeling that night alarms would be heard in London and other cities.

RAIDS BY BRITISH
BERLIN, Dec. 27.—(AP)—D.N.R. German news and propaganda agency, said today British planes bombed airports and ports in the Channel, and a few other French towns yesterday and last night.

The news claimed no military damage was done. A British bomber was said to have been downed.

The agency said German planes made no flights over England yesterday or last night.

The British air and home security ministry announced yesterday that a single enemy bomber had dropped bombs on the life of Sheppey, in the Thames estuary, without casualties or damage.

Informed sources in Berlin claimed that German long range bombers effectively shelled ships in the Channel and the port of Dover this morning.

The British Press Association said recent damage to German ships resulted from the bombardment in the Dover area.

Italy Claims That British Ships Are Bombed By Planes
ROME, Dec. 27.—(AP)—Artillery and patrol activity were reported today from both the Libyan and Albanian fronts by the Italian high command.

The reported airplane sighting and "effectively bombed" a British submarine yesterday off the Libyan coast, it said.

Other Italian planes in North Africa had been reported to have bombed a harbor, and British battleships and mechanized forces, it said.

There was no immediate British comment on these claims.

Talks With Nazis
VICHY, France, Dec. 27.—(AP)—Navy Minister Jean Darlan, who yesterday from a debarcade visit to Paris in which he believed he explained an agreement with the Vichy government of the two countries might continue.

BARDIA'S FALL ONLY AWAITING GO-AHEAD SIGN

Continued from Page One. That every effort was being made to sweep the Italians from the area.

While the situation around Bardia apparently has not changed much in the last day of an Italian mechanized force has been sent to reinforce the Italian army.

British officers said the Italians were making no attempt to send reinforcements to Bardia or to withdraw troops and materials from that region.

Reports reaching Cairo said the Italians were moving some war materials from Italy in Libya, but that no reinforcements were being sent to the Mediterranean.

Passenger Trains Hungary Cancelled

BUDAPEST, Dec. 27.—(AP)—All passenger train service between Hungary and Rumania will be suspended Dec. 28 until Jan. 15, it was reported here yesterday.

Here Are the Clothes . . . For a Good, Good Time!

A gay new gown—some glittering jewelry—snow white evening gloves—a pair of sparkling slippers—all add up to a glamorous YOU for the festive season now in full swing.

Provincial Civic Officials Confer On Several

Issues

Investigation of several relief matters in which there is difference of opinion between city and provincial relief officials is being made, according to a communication received Friday by Mayor John W. Fry from Hon. Dr. W. W. Cross, provincial minister of health and relief.

Included in the investigation is the alleged "dead man relief case," it being charged by A. A. Mackenzie, commissioner of public welfare for the province, that the city

Full report of the result of the investigation will be made available to the city commissioners.

Recently Mayor Fry, on behalf of the city commissioners, wrote Dr. Cross asking that an investigation of the alleged "dead man" case be conducted as the charge that the city had collected relief for a dead man seriously reflected on the officials of the special relief department.

Maple Leafs Defeat E.A.C. 7-5 To Again Lead City Junior League

Oldest Of Thoroughbreds Will Be 38 Come New Year

By JUSTIN ANDERSON

LEXINGTON, Ky., Dec. 27.—(AP)—The heart that carried Merriek through 205 races from 1905 through 1915 still is ticking in the oldest of thoroughbreds known to be alive today. On Jan. 1, universal age-change date of all race horses, Merriek will be 38 years old.

There's action in the voice of this owner, J. C. Milam, a horseman-farmer, when he tells you of his small country bridge and Milam's farm will carry Merriek's name after the "Old Man" is gone. Merriek is a gelding.

"Numerous bridges in the blue grass county of Fayette are named after him. In fact, he has been named every year. Milam continued, leaning on the nearby blind, deaf and crippled animal. Merriek made an effort to look his best for a photographer and held his head erect.

Merriek's appearance was marred by a head injury, suffered recently, but Milam said it is "feeling along fine."

Merriek, foaled in 1903 on the late James B. Haggin's farm near Sacramento, Calif., the son of imported Golden Gate, a bay, and a mare named after a racing cat.

Merriek was successful as a two and three-year-old. In fact, he had won a purse at a three-year-old, but under Milam's careful handling began winning at a four-year-old and scored his greatest success during his fifth, sixth and seventh years. He continued campaigning until well in his 11th year when he was brought to the bluegrass and retired.

205 starts, records show he won

GARMS AWARDED BATTING CROWN FOR NATIONAL

NEW YORK, Dec. 27.—(AP)—

The disputed batting championship of the National Baseball League became the irrefutable property of the Detroit Tigers of Pittsburgh Pirates today upon announcement of the official averages for 1940.

The Texas rooted off a 335 figure for 338 times at bat in 100 games.

The controversy that raged at the close of the season over the batting leader centered solely on the fact he had gone to bat less than 400 times. The figure which he had had been considered the minimum qualification for the championship in both major leagues.

On this basis, the title would have gone to Stanley Hack, veteran third baseman of Chicago Cubs, who batted .317 in 603 times at bat in 149 games.

But in the waning days of the 1940 campaign, it was discovered that while the American League had a rule providing for designation of a hitting champion each year on the basis of 400 times at bat, the National League had no rule of any kind. A league spokesman said the player who participated in more than 400 games and topped the list of official averages would be the champion.

But the National League Bureau would second automatically to the third.

Garmy did not. He was a utility man for the Pirates, playing the outfield and third base as well as a left-handed pitcher. He never was a regular, but he got into more than 400 games as the hitters, so the batting championship is his as far as the National League is concerned.

Three other batters intervened between Garmy and Hack in the rankings. Virgil (Spud) Davis of the Pirates played in 99 games and went to the plate 283 times, averaging .326. Eino Lombardi of the Yankees batted 319 times in 109 games, and John Conner of Boston Beane batted 316 times in 108 games.

CAMROSE HIGH DEFEATS PONOKA

Exclusive to Edmonton Bulletin

CAMROSE, Dec. 27.—In the first high school hockey league game of the season, Camrose high defeated Ponoka high 4-1 on Thursday night by a score of 3-1.

Both clubs gave a good exhibition of hockey. The visitors appeared to be in better condition than the Camrose club.

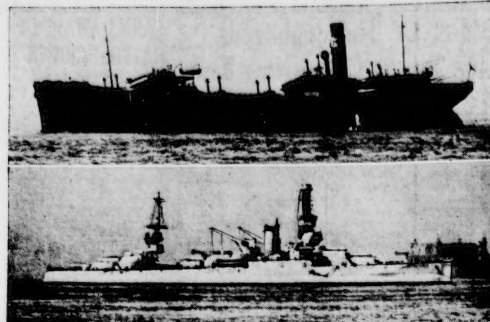

They have a fast, small club and play a rugged brand of hockey, being the first game in the league and the first time they met on the ice. Camrose won on holding and trapping. The first period was full of action and there was a near fight. Before Bailey could the players off by throwing out a major penalty. Klithorn of Ponoka, and a minor to Carter of Ponoka, while two of the Camrose players, Glavin and Barrie were penalized. No further penalties were given during the balance of the game.

The first period ended with no score showing for either club. The Camrose high came to life in the second when they scored three without a reply from Ponoka. Waterston scored the first goal when he carried the puck the length of the ice and drew the Ponoka goalie out of the net. Duvelling and the second on a pass from Glavin and Yoder combined with Reed to beat the third Camrose keeper. Ponoka's counter went to Carter, who was the only goal of the third period.

LINEUPS: Ponoka: Watson, Klithorn, Smith, Barrie, Jones, Carter, Crawford. Camrose: Schlegel, A. Young, Hoffman, Hays, C. W. Carter, Tom A. and J. Richardson, Robertson, Duvelling, Peck, Reed, Yoder, Glavin.

SUMMARY: Second period: No scoring. Third period: 1—Carter, Barrie, 2—Carter, Barrie, 3—Carter, Barrie, 4—Carter, Barrie, 5—Carter, Barrie, 6—Carter, Barrie, 7—Carter, Barrie, 8—Carter, Barrie, 9—Carter, Barrie, 10—Carter, Barrie, World-Wide News Pictures By The Edmonton Bulletin Cameramen

Battleship and Freighter It Ramm'd

Steaming up the Atlantic from a southern cruise, the 32,000-ton U.S.S. Arkansas rammed the 5,000-ton freighter Melrose off Sea Girt, N.J. Damage to the battleship was superficial, but to the freighter serious. Litter is pictured, above, lying in New York harbor, listing heavily from flooded holds. The Arkansas, obsolete battleship now used to train naval recruits, is seen, below, going to her Hudson River berth.

Empire Airmen Trained In Canada Now Serving In England

The first airmen to be trained in Canada under the empire training scheme are shown, right, on the march at their headquarters in England. All the men in this group are sergeant-observers. Pilot officers, also trained in Canada, are shown, left, as they watched planes flying overhead.

Bullets And Blossoms

Reinment of Chinese against fellow-countrymen who serve the Japanese invaders has made existence precarious for these puppets. Above, pinned Chen Kung-shan (in overalls) is mandarin Mayor at the Japanese-controlled Shanghai Special Municipality. Now guard at left, with bouquet of flowers in one hand—and a pistol ready in the other.

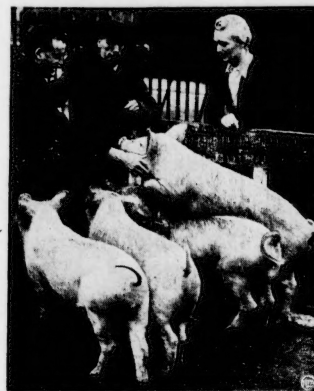

R.A.F. Has Its Own Way

The Royal Air Force in the Middle East has a fleet of high-speed launches used for rescue work when planes are forced down over water. (Top) One of the launches, which are fitted with radio, medical and life-saving apparatus, ploughs through the water. (Lower) The exterior of the control cabin of a launch. The officer in command is in the lowest post in the cabin at the right. These small craft have saved the lives of many British fliers—and enemy aviators as well—who were forced or shot down at sea.

India Serving, Too

Native troops of India have flocked to the banner of the Royal Air Force, finding their abilities in the fight against Germany. This is a fine character study of an Indian pilot, availing himself of hot coffee after a flight. He wears his turban as he would a pilot's helmet. That and his beard are the only things not modern in his appearance.

Where Tennis Stars Once Shone

At the famous All-England Lawn Tennis Club, Wimbledon, where the world's tennis stars once shone, these parkers are now the centre of attention. The club is solving Britain's food problem by breeding pigs. At right, above, Club Secretary Nuala Clasher watches daily feeding of the pigs, two of which belong to club, two to troops stationed nearby.

Egyptian Fliers Doing Good Work

Air Chief Marshal Sir Arthur Longmore, left, chatting with some of the Egyptian pilots who have been responsible for the harrying from the air of retreating Italian troops in the latest phase of the Libya-Italian battle.

Predicts Italy's Return To Democracy

Count Ciano, Italy's former premier, believes that the mass of Italian people are disgusted with the present regime and that the days of fascism in Italy are numbered. Count Ciano, now an exile in the U.S., is shown here with Dr. Friedrich Von Pfeiffer and Gaffron, former German ambassador to the U.S.

Italian Native Troops Captured

Head of the British advance in Egypt in this picture showing a small band of Italian warblers after they had been driven from the great advance which drove all Italian from Egyptian soil, back to Italian-occupied Libya.

Princess Juliana Guest Of Roosevelt

Princess Juliana of the Netherlands arrived in Washington for a three-day visit at the White House as guest of the president and Mrs. Roosevelt. Shortly after her arrival, the young princess met with Mr. Vernon, house of George Washington, with Mr. Roosevelt and her party. Princess Juliana and Mrs. Roosevelt are shown during their tour of historic Mt. Vernon.

S-A-Dance Girls

Dance-dance girls are famed in song and story. Here is a pair of dollar-a-dance girls. They're among a group of one models who will sell dances at a "star-spangled" old-for-Britain ball to be held in New York. Peggy Tiger is demonstrating one of her dance steps for fellow-model Arlene Harvey.

British Sailor Receives M.A.

His mortarboard and academic gown worn over his uniform, this British sailor was photographed after he had received his Master of Arts degree at Oxford. He is now entitled to use the initials A.B., B.A., after his name. The "A.B." is for Able Seaman.

U.S.-Canadian Defence Board Meets In New York

The United States-Canada joint defence board is pictured when it met in New York for the first time since it held a conference on the defence of the east coast on Nov. 13 in Vancouver, B.C. LEFT TO RIGHT, SEATED, Captain R. F. Ross, Captain L. W. Murray, deputy chief of naval staff, Air Commodore A. A. L. Cuffe, Brig. Kenneth Stuart, deputy chief of the Canadian army general staff, Lieut.-Col. George P. Vanier, the Canadian army; Col. Oliver Maxwell Buzar, chairman of the board's Canadian section, and Major Patrick La Guardia, of New York city, chairman of the board's American section. All seated with the exception of Major La Guardia representing Canada. In the REAR, LEFT to RIGHT, Hugh L. Kennedy, minister of the department of external affairs (Canada); Major-General Stanley D. Embick, U.S.A., commanding the Fourth Corps area; John D. Hilderton, assistant chief of the European affairs division of the state department (U.S.); Major Clayton Russell, U.S.A.; Captain Harry W. Hill, of the war plans division, office of the chief of naval operations (U.S.); and Commander Forrest P. Sherman of the U.S. navy.
